

# CUSTOM SOLUTIONS

## bioBUBBLE

CONTROLLED ENVIRONMENTS | CUSTOM SOLUTIONS

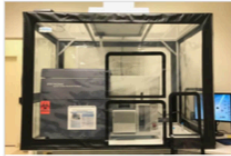

### CLEANROOMS

Custom softwall, positive pressure enclosures with 99.99% HEPA filtration.

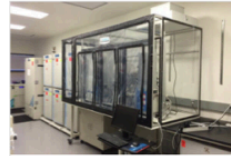

### NEGATIVE PRESSURE CONTAINMENT ENCLOSURES

Custom softwall, negative pressure enclosures with 99.99% HEPA-filtered exhaust.

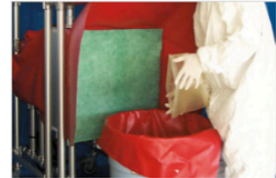

### BENCHTOP BIOCONTAINMENT ENCLOSURES

Containment solutions for laboratory equipment.

### ENCLOSURES FOR ROBOTS

Flexible clean and containment solutions for laboratory automation including liquid handling robots, plate sealers, and plate stackers.

### BEDDING DISPOSAL UNIT

Personnel protection from airborne particulates.

### ANTEROOM/AIRLOCKS

Softwall enclosures ideal for donning/doffing, air barriers, and docking for material transfer.

### AIR SHOWERS

High volume, low velocity HEPA-filtered air stream for a localized area of high filtration.

### POWER UNIT WITH DIFFUSION HEAD

High levels of HEPA filtration to reduce dust, dander, and other airborne particulates at the room level.

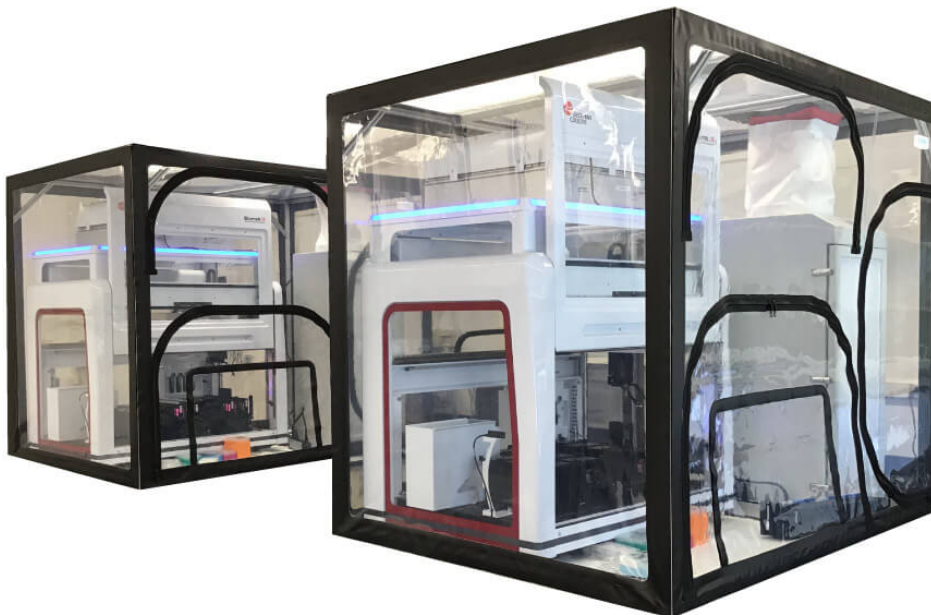

### WORKSTATION

The bioBUBBLE Workstation is a portable, clean or contained environment. Use as a transport cart, a workstation or a housing environment.

### RACK COVERS

Durable vinyl-coated polyester covers custom manufactured to fit any size rack, trolley or cart.
